1. TITLE OF THE PROJECT

**“EFFECTIVENESS OF THE SOCIAL NETWORKING
SITES FOR CREATING SOCIAL REFORMS”**

(A CASE STUDY OF ANNA HAZARE)

ProjectHelp.me.in

2. STATEMENT OF THE PROBLEM

The main purpose of this research is to determine the important drivers of social networking sites for creating social reforms. A social networking service focuses on building online communities of people who share interests and activities, or who are interested in exploring the interests and activities of others. Most social network services are web based and provide a variety of ways for users to interact, such as e-mail and instant messaging services. Social networking has encouraged new ways to communicate and share information. Social networking websites are being used regularly by millions of people.

Almost all social network have a set of features which are considered essential to qualify as a social networking service, namely: the ability to set up and customize a personal profile, an ability for members to comment, fine granular control of who sees what (privacy settings), ability to block an unwanted member, have own page of personal entries or notes and individual picture albums, ability to own, form or be member of a Group or Community.

As the increase in popularity of social networking is on a constant rise, new uses for the technology are constantly being observed. One popular use for this new technology is social networking between businesses. Companies have found that social networking sites such as Face book and Twitter are great ways to build their brand image.

Social networking is more recently being used by various government agencies. Social networking tools serve as a quick and easy way for the government to get the opinion of the public and the keep the public updated on their activity. The Centers for Disease Control demonstrated the importance of vaccinations on the popular children's site

Whyville and the National Oceanic and Atmospheric Administration has a virtual island on Second Life where people can explore underground caves or explore the effects of global warming. Popular Social Networking Sites in India are Face book, Orkut, Twitter MySpace, LinkedIn, BeBo and Hi5 etc.

The effectiveness of social networking sites as a tool of social reform. The reason for the choice of social networking sites is that it is the favorite spot of youngsters and middle aged professionals to hang for couple of hours with their friends. There is growing popularity of social networking sites among Indians. The finding reveals that the users show fair degree of interest towards displayed advertisement on their websites. The users show positive response towards the advertisement as they have good recall rate to the ads.

3. OBJECTIVES OF THE STUDY

Fixing the objective is like identifying the star. The objective decides where we want to go, what we want to achieve and what is our goal or destination.

1. To evaluate the effectiveness of social networking sites for creating social reforms.
2. To understand user reaction towards social networking sites based social reforms.
3. To study social reforms recall status of users of social networking sites.
4. To study various social networking sites.

4. RESEARCH METHODOLOGY

The project being undertaken is exploratory research. Where in all these approaches of exploratory research like:

It is a way to systematically solve the research problem. The research methodology includes the various methods and techniques for conducting a research. Research is the systematic design, collection and analysis and reporting of data and finding a solution to a specific situation or problem. D.Slesinger and M.Stephenson in the encyclopedia of social sciences defines Research as, “ **The manipulation of things, concepts or symbols for the purpose of generalizing to extend , correct or verify knowledge, whether that knowledge aids in construction of theory or in the practice of an art.**” Research is, thus, an original contribution to the existing stock of knowledge making for its advancement.

DATA COLLECTION METHOD:

The data with respect to the study was collected in both ways, i.e.

- (i) Primary Data
- (ii) Secondary Data

Primary data mean original data that have been collected specially for the purpose in mind. As far as Primary Data is concerned, The Research was more of a sample survey; making the respondents fill the Questionnaire has collected the data. The respondents have personally filled the questionnaires and their attributes regarding the study were collected. For the purpose of Secondary Data, the researcher has reviewed the literature like books by famous authors, internet searching and different articles published in academics journals and magazines, newspapers, data from book etc.

SAMPLE DESIGN:

Sampling is that part of statistical practice concerned with the selection of individual observations intended to yield some knowledge about a population of concern, especially for the purposes of statistical inference. Each observation measures one or more properties of an observable entity enumerated to distinguish objects or individuals. Survey weights often need to be applied to the data to adjust for the sample design.

- a) **Universe:** The universe of the study consists of all the users of social networking sites.
- b) **Population:** The population consists of all Delhi users of social networking sites.
- c) **Sample Unit:** It refers to the smallest possible individual eligible user of social networking sites. In the current study the sampling unit is user of social networking sites.
- d) **Sample Size:** 100 users of social networking sites constitute the sampling size.
- e) **Sampling Technique:** The selection of the respondents will do on the basis of convenience sampling.

METHOD USE TO PRESENT DATA:

Data Analysis & Interpretation – Classification & tabulation transforms the raw data collected through questionnaire in to useful information by organizing and compiling the bits of data contained in each questionnaire i.e., observation and responses are converted in to understandable and orderly statistics are used to organize and analyze the data.

- ◆ Simple tabulation of data using tally marks.
- ◆ Calculating the percentage of the responses.
- ◆ Formula used = $(\text{name of responses} / \text{total responses}) * 100$

Graphical analysis by means of pie charts bar graphs etc.

5. QUESTIONNAIRE

Dear Respondents,

I am, a student of, as a part of my curriculum; I am to take a research Project on **“EFFECTIVENESS OF THE SOCIAL NETWORKING SITES FOR CREATING SOCIAL REFORMS:-A CASE STUDY OF ANNA HAZARE.”** To enable to undertake above mentioned study, I request you to give your fair views. Your insights and perspective are important and valuable for my research.

Policy on Confidentiality: Please feel free to give your honest responses. The confidentiality of the information provided by the respondent is completely assured.

1. Do you use any social networking sites?

Yes

No

If yes, continue. Otherwise terminate.

2. Kindly name the Social networking sites that are currently used by you as per your frequency of usage. (No 1 –site you use most, No-4 site you use least)

1. _____

2. _____

3. _____

4. _____

3. On average how much time you spend on social networking site in a day?

Less than 30 mins

30-60 mins

More than 60 mins

Above 2 hrs

4. Do you feel that social networking site really a help for crating social reforms in the society?

Yes

No

5. What do you use SNS site for? (Rank 1= Highest)

Particulars	Rank
Stay upto date with friends	<input type="text"/>
Promote my business	<input type="text"/>
To fetch new deals and discounts	<input type="text"/>
Research product and services	<input type="text"/>
To explore what Social networking site is all about	<input type="text"/>

6. Where do you see ads or promotions of various companies the most on your social networking sites? Kindly rank (Rank 1 = Highest)

Particular	Rank
Profile Page	<input type="text"/>
Photo albums	<input type="text"/>
Events	<input type="text"/>
Messages	<input type="text"/>
Applications	<input type="text"/>

7. What is your reaction on viewing the social reforms? (IF OPTION 1 THEN

MOVE TO QUESTION NO 14)

I never pay attention to the **social reforms** advertisement

7. CHAPTERISATION

Detailed/final Project Report will include the following chapters

Chapter –I Introduction

Chapter –II Objective and scope of study

Chapter –III Methodology

(Details of methodology used in studying and collecting the data and issue will be described)

Chapter –IV Descriptive work

(Descriptive work on the topic, this chapter will include analysis and interpretation of data tabulation and categorization)

Chapter –V Study report

(Study report of other researcher will be observed and analyzed)

Chapter –VI Conclusion

Chapter-VII Findings

Chapter –VIII Limitations

Chapter –IX Recommendation

Chapter –X Bibliography

Chapter –XI Appendix-1

(Questionnaire prepared for conducting study will be attached and other papers which have not been mentioned above will be included, if required)
